Secondary activities

Project leader & Finance

Sep 2024- Juni 2025

Fine Art Department, Maastricht

As part of our graduation all the students at Fine Art need to work together to create a publication and organize the graduation show weekend. From organizing drinks and getting the finances in order to be able to print the publication we all need to organize it ourselves. I was elected project leader and head of finance. Among my responsibilities were making a budget and tracking it, manage all the different committees and leading the weekly meetings.
